PROJECTS

EncryptedCyberTech(Using React)   01 Jun, 2023 - 15 Jul, 2023
Team Size: 1

Key Skills: ReactJS   MongoDB Atlas   NodeJS   Tailwind css   Bootstrap   javasc

Project Link: https://github.com/AdityaVazarkar/EncryptedCyberTech

website focuses on cybersecurity and hacking-related content. The home page serves as an introduction, offering valuable insights into hacking attacks and preventative measures. The blog page likely provides in-depth articles on various cybersecurity topics, while the video page hosts educational hacking videos. On the ebook page, visitors can access informative content related to cyber security. Lastly, the contact page allows users to reach out to your team for further assistance or inquiries. Together, your website aims to educate and raise awareness about cybersecurity threats and best practices for protection.

Food Order website(Using React)   01 Mar, 2023 - 01 May, 2023
Team Size: 4

Key Skills: ReactJS   MongoDB Atlas   Tailwind css   Bootstrap   Node.js   JSON   Javascript

Project Link: https://github.com/AdityaVazarkar/food-app-mern

• Worked on the front-end development of the platform using React.js and HTML/CSS
• Built APIs using Node.js and Express.js for back-end functionality
• Designed and implemented the database schema using MongoDB
• Collaborated with team members to identify and resolve technical issues
• Conducted regular code reviews and implemented improvements based on feedback
